PHILOSOPHIES ON APhA-ASP and Pharmacists
APhA-ASP succeeds in delivering the fundamental principles that complete our mission package today (including curricular, professional, and networking opportunities). As we move into the future, it is important that we preserve and advance our role within the healthcare system. This requires strong leadership, and I am committed to ensuring that APhA-ASP remains a prominent voice in our profession. I believe that APhA-ASP’s role is to provide meaningful experiences that evolve us into not only better pharmacists, but passionate pharmacists motivated to advance. In my position as President, I will work to ensure that our programs and initiatives continue to reflect these values.

SPECIALIZED TALENTS & SKILLS
My leadership style is rooted in my personal experiences. I believe in taking an active role in our community, both on and off campus. I am a strong believer in the importance of community service and have been actively involved in various volunteer opportunities throughout my undergraduate and graduate education. I have a passion for helping others and strive to make a positive impact on the lives of those around me.
