**APhA Salutes You!**

The American Pharmacists Association (APhA) invites all federal pharmacists to join our community of 64,000+ members. Visit us at the Sebastian Registration Desk to learn more about a special 15-months-for-the-cost-of-12 offer for new members—only available at JFPS 2017!

You will receive a special membership gift, on site, when you join!
Exhibit Hall Opening—Meet Your Industry Partners
Sunday, September 10
1800–2000
Sebastian Ballroom

We have lift off! Join your colleagues for the Exhibit Hall Opening and enjoy a virtual ride to outer space while you visit with our valued supporters to see the latest and greatest in products and services for federal pharmacy! Complimentary food and refreshments are served. A cash bar is also available. Dress for the reception is business casual. Your badge is required for entrance (and lift off!).

Supported by Amgen.

Signature Event: Collaborating for a Brighter Future
Monday, September 11
1730–1900
Gatlin Terrace

Join us outside on the beautiful Gatlin Terrace to gather with your colleagues for lively discussion prior to your evening’s activities. The event features entertainment, light cuisine, and beverages. Dress for the evening is business casual — be sure to bring a jacket as the event is outdoors. Your badge is required for entrance.

Supported by Walgreens.

Closing Reception and Awards (or Service) Program
Wednesday, September 13
Butler Reception: 1730–1830
Awards (or Service) Program: 1830–2000

Join your colleagues for the celebration of excellence. The evening includes a joint reception followed by the awards (or service) program. Dress for the evening is service or business attire.

- Ralph D. Arnold Awards Program (USA), Wekiwa 7-8
- Lamar Smith Awards Program (USN), Wekiwa 9-10
- Jerry W. Ross Awards Program (USAF), Suwannee 11-12
- USPHS Pharmacy Update and Coast Guard Recognition, Suwannee 13

Supported by Parata Systems and GSL Solutions.

American Pharmacists Association Membership Information

Sebastian Registration Desk

APhA salutes federal pharmacists and technicians! APhA recognizes federal pharmacists and technicians by offering a discount on membership dues, plus you’ll receive 15 months of membership for the cost of 12 if you join as a new member at JFPS. Join or renew your membership and receive a free commemorative ceramic tile and other gifts. Stop by for more details on APhA—the leader in providing professional information, education, and advocacy for pharmacists in all practice settings. Membership Information hours are:

- Sunday: 1200-1700
- Monday: 0700-1700
- Tuesday: 0730-1700
- Wednesday: 0800-1500

Badges and Tickets

Please wear your name badge at all times during the seminar. Your badge serves as your passport to JFPS 2017 activities. Attendees without an official badge are not admitted.

Registration is required for all social events. Social events are included with attendee, guest, and exhibitor registrations. Non-registered guests may register for social events at the Registration Desk.

Lost badges incur a $15 badge replacement fee.

Business Center

Phone: 407-996-9939, ext. 17360
Email: sc@ricohbusinesscenters.com

Ricoh manages the business center located on the conference level. The hours of operation are Monday–Friday, 0700–1900 and Saturday–Sunday, 0800–1700. Hours subject to change.

Cyber Café

The Cyber Café, located at the Sebastian Registration Desk, offers complimentary access to the Internet so you can check email, download the latest JFPS 2017 schedule, link to exhibitor sites, and record CPE.

Emergencies and First Aid

To report an emergency, dial *55 from any house phone or call 911. The APhA Office is located in the Wekiwa 5.

Hotel Information

A representative from the JFPS Hotel Reservation Office, Expovision, is available at 703-770-3940. For general hotel assistance, refer to the Rosen Shingle Creek front desk.

Internet Access

Complimentary Internet is available in the meeting and exhibit areas:
- Network: JFPS 2017
- Access Code: federal2017

Supported by Genentech.

Complimentary Internet is also available in guestrooms for attendees who booked through the APhA Hotel Reservation Office.

Lost and Found

The APhA Panzacola Registration Desk serves as the central Lost and Found collection area. Inquiries may also be directed to the hotel. Dial extension 17812 and ask for lost and found.

Children

Please note that children under the age of 18 are not permitted in the education sessions or the Exposition, including the Opening Event in the Exhibit Hall. This includes children in strollers and carriers.

Alcoholic Beverage Policy

In keeping with pharmacy’s role as a health profession, JFPS de-emphasizes the consumption of alcohol. Please provide proper identification when required.

No Cover/No Salute

The Rosen Shingle Creek campus has been deemed “No Cover/No Salute Required.” Therefore, all attendees in uniform are not required to wear head gear, cover, or hat and a salute is not required. However, attendees in uniform who leave the Rosen Shingle Creek campus are required to wear the appropriate head gear and render a salute when protocol would require such uniform courtesy.

Service Message Boards

Army, Navy, Air Force, Department of Veterans Affairs, and Public Health Service/Coast Guard.

Located in the Panzacola Foyer, Service Message Boards are available for your convenience. You may also schedule interviews at the Message Boards.

Smartphone App

The JFPS 2017 App is an application for smartphones that contains the schedule, exhibitor list, session details, and more! Click on the smartphone icon at www.jfpsinfo.org. For assistance with the App, visit the Panzacola Registration Desk.

Community Service Project: Paws for Veterans

Paws for Veterans is a local non-profit organization providing psychiatric service dogs to veterans with PTSD. Trainers are on site to showcase the talents and value of these amazing animals, and donation bins are available at the entrance to the General Session and Exhibit Hall. Please consider a generous contribution!

Paws for Veterans is a local non-profit organization providing psychiatric service dogs to veterans with PTSD. Trainers are on site to showcase the talents and value of these amazing animals, and donation bins are available at the entrance to the General Session and Exhibit Hall. All continuing pharmacy education (CPE) participation will be recorded online for JFPS 2017. Recording credit online is quick and easy!

- You may record your CPE credit at the Cyber Café during the meeting or online at www.jfpsinfo.org after the meeting until October 13, 2017, 1700 ET.
- You need your pharmacist.com username and password.
- You need your NABP e-Profile ID to allow the CPE credit to be transferred to the CPE Monitor system.

**From the Cyber Café**

1. Click on CPE Icon.
2. Log in using your pharmacist.com username and password.
3. Enter the attendance code(s) and select “Submit.”
4. Click the “Claim Credit” button (located in the “Your Sessions” section).
5. Click the “Evaluation” button.
6. Complete the session and speaker evaluations.
7. Click the “Claim Credit” button.
8. Select the appropriate credits.
9. Enter your 6-digit NABP e-Profile ID, the month and day of your birth and check “yes” to verify accuracy and click “Claim.” Allow 3 hours for NABP number activation if you have just requested one.
10. CPE credits will automatically be transferred to CPE Monitor, although they may not post to your CPE Monitor transcript immediately.
11. Your Pharmacist.com “My Training” page maintains a list of your enrolled and completed conferences; however, you will be linked back to CPE Monitor for proof of your CPE credit.

**From Another Computer**

2. Click the “Education” link and select “Continuing Pharmacy Education.”
3. Log in with your pharmacist.com username and password.
4. Follow steps 3-11 in the adjacent column.

**For Assistance**

- If you need your username and password, contact infocenter@aphanet.org or phone 1-800-237-APhA, press #2.
- If you have general questions, please email a request to the APhA Education Department at education@aphanet.org.

CPE participation must be recorded by October 13, 2017, 1700 ET.
CONTINUING PHARMACY EDUCATION INFORMATION

Depending on their organization or branch of service, qualified attendees are able to earn up to 21 hours of continuing pharmacy education (CPE) credit. Sessions approved for CPE credits are indicated by an ACPE number and the number of CEUs in the Program Guide.

Accreditation
The American Pharmacists Association (APhA) is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education.

CPE Monitor
The CPE Monitor system became mandatory for all pharmacists, technicians, and CPE providers on January 1, 2013. If you have not obtained your NAPB e-profile ID, please go to http://www.nabp.net/programs/cpe-monitor/cpe-monitor-service. If you have any questions about this system or your number, contact NABP customer support at 847-391-4406, Monday–Friday between 0900 and 1700 CT.

International Pharmacists
International pharmacists may obtain CPE credit for their participation. Please contact eterry@aphanet.org for details.

Target Audience
JFPS 2017 education sessions are designed for federal pharmacists and pharmacy technicians.
• Courses appropriate for pharmacist participation are designated by an ACPE universal activity number ending in the letter “P.”
• Courses appropriate for pharmacy technician participation are designated by an ACPE universal activity number ending in the letter “T.” The number of credit hours is based on the amount of content applicable to pharmacy technicians. Please review the ACPE information for each session to determine the amount of credit offered.

Learning Objectives
Learning objectives for all CPE sessions are provided on the JFPS 2017 website, www.jfpsinfo.org, and are announced at the beginning of each session. To locate the learning objectives online, select the specific education session from the listing under the Education tab.

Disclosures
Faculty disclosures are provided on the online cover sheet for each session. The JFPS Planning Committee and APhA staff disclosures can be found on the meeting website, www.jfpsinfo.org.

CPE Requirements
To earn CPE credit for a session accredited by APhA, participants must actively participate in the entire session, submit an attendance code, complete a session evaluation, and claim credit using the online CPE submission site. Proof of your CPE credit will be available to you on CPE Monitor. APhA will no longer issue Statements of Credit. See page 6 for more information and instructions.

State Requirements
Check with the Board of Pharmacy in your state regarding specific CPE requirements.

Florida-licensed pharmacists: To ensure that your continuing pharmacy education participation can be filed with the state-mandated CE Broker system, please make sure you have provided APhA with your Florida license number. To check, log on to www.pharmacist.com and select Your Account, then License Information.

Grievance Policy
Should any attendee of an approved CPE session be dissatisfied with the quality of the activity, a request in writing must be submitted to the APhA Education Department at education@aphanet.org within five days of the conclusion of the session.

Learning Levels
To help you more efficiently plan your time, the content of the education sessions is categorized into two levels of expertise:
• Level 1: Baseline knowledge of the subject area is required. The information presented will be a primer on the topic and appropriate for a wide range of pharmacists and pharmacy technicians.
• Level 2: Experience with the topic is recommended, but advanced expertise or specialty practice in the subject area is not necessary. These educational offerings will focus on expanding the learner’s knowledge and application of the new and/or more complex information.

Activity Types
Activity types are designed to give attendees an idea of the intended outcome of a continuing pharmacy education (CPE) activity.
• Knowledge-based activities are designed to enhance or add to pharmacists’ or technicians’ knowledge of a topic; mostly didactic sessions.
• Application-based activities provide pharmacists and technicians with opportunities to apply their knowledge, usually through case studies or other application activities.
• Practice-based activities are longer, more comprehensive activities of at least 15 hours that incorporate knowledge, skills, and performance. These activities are also known as certificate training programs.
Sunday, September 10

Service Breakout
Navy Service Breakout: Navy Pharmacy — Grooming Future Leaders
0900–1400
Wekiwa 9-10
Activity Type: Knowledge-based
Level 2
ACPE# 0202-0000-17-189-L04-P/T
0.4 CEUs
Navy pharmacy officers are updated on strategic goals, enterprise-wide operations, recent policy and procedure changes, and performance measures applicable to military medicine and Navy Pharmacy operations. Topics include force-shaping guidance, career-enhancing mentorship, basic-to-advanced administrative skills, and optimization of resources to support mission readiness.

Wekiva 7-8
Activity Type: Application-based
Level 1
ACPE# 0202-0000-17-194-L04-P/T
0.2 CEUs
Creating a tobacco-free nation is one of the top priorities of the U.S. Surgeon General. Smoking is still the leading cause of preventable death and disease in the U.S., yet an estimated 42 million adults continue to smoke. The good news is that more than two-thirds want to quit, with about one-half reporting that they have made a conscious effort to quit smoking in the previous year. This program provides the health professional and clinical support staff with the ability to refer tobacco users to appropriate resources to enable them to quit.

Speaker(s): LT Gayle Tuckett USPHS/HIS

Monday, September 11
Meet the Researchers Poster Session – Part 1
1800–2000

Level 1
ACPE# 0202-0000-17-169-L04-P/T
0.15 CEUs
The 2017 Joint Federal Pharmacy Seminar (JFPS) is an opportunity for Federal Pharmacy senior leaders to update meeting attendees about significant strategic initiatives, challenges faced, and opportunities for collaboration for all branches of the United States Armed Forces, U.S. Coast Guard, Department of Veterans Affairs and the United States Public Health Service. This session provides an educational venue for pharmacists and pharmacy technicians to hear directly from their chief pharmacy officers on current key issues and future plans that affect their individual organizations and how these issues and plans impact their local pharmacy operations and patient care services. During this session, federal pharmacists and pharmacy technicians receive updates on strategic goals, joint and service specific initiatives, policies, and performance measures applicable to their pharmacy practice. The session will conclude with a panel discussion and the opportunity for audience interaction (Q&A) with the federal pharmacy chiefs.

Electronic Health Record: MHS GENESIS and Federal Update
Activity Type: Knowledge-based
Level 1
ACPE# 0202-0000-17-187-L04-P/T
0.1 CEUs
In 2015 the Department of Defense (DOD) contracted with a multi-vendor team led by Leidos to replace the aging Military Health System’s Electronic Health Records (EHR). Leido’s EHR partner, Cerner, was tasked with providing the DOD a commercial off the shelf (COTS) solution to replace CHCS, AHLTA, and Essentris. The replacement system will provide both an inpatient and outpatient pharmacy module and will include new technologies for the DOD, such as inventory management, barcode medication administration, and controlled substance electronic prescribing. This presentation discusses federal program goals, initiatives, initial implementation successes, lessons learned, and the current and future state of the MHS GENESIS project.

Speaker(s): Capt Burke Wilson, USAF BSC; CAPT David Hardy MSC USN; Maj Justin Lusk USAF BSC; LT Mindy Paturzzio MSC USN

Service Breakout
VA Service Breakout: Pharmacist’s Role in New and Niche Areas: Biosimilars and the Emergency Department
1430–1700
Wekiwa 9-10
Activity Type: Knowledge-based
Level 1
ACPE# 0202-0000-17-196-L04-P
0.25 CEUs
This session covers two growing areas where expanding pharmacy services is needed: the emergency department (ED) and use of biosimilars. Both clinical and operational issues that should be considered when establishing pharmacy services in the ED are reviewed. Clinical best practices are shared to help pharmacy clinicians better understand the scope and role that pharmacists can play to help improve patient care and overall patient outcomes. The variability in using recent research and practice guidelines as well as ways to better use evidence-based practices are discussed. Clinical and operational issues associated with the oversight of safe and appropriate use of non-oncologic biopharmaceuticals, including biosimilars are addressed and clinical best practices involving biosimilars are shared. Presenters will interact with participants in several ways including polling questions and direct question/answer segments.
Speaker(s): Idi Idiong, PharmD, Bay Pines VA Healthcare System; Kimberly Schnacky, PharmD, BCPS, BCACP, VA Medical Center

Innovative Health Care

Activity Type: Knowledge-based
Level 1
ACPE# 0202-0000-17-171-L04-P/T
0.1 CEUs
Health care delivery has undergone a revolution over the past 50 years. The concept of consumerism and managing one’s own interactions with providers has driven patients, providers, and payers to look for new methods of care delivery. At the same time, expectations for health outcomes vary greatly by disease state and the patient’s responsibility for participating in programs aimed at adherence and health care utilization underestimated. While technological advances have become an integral part in the revolution with interactive physician visits, physical exams and vital statistic monitoring being considered the norm, the impact on these advances has been less than optimal. What is working—and what is not—is explored from the perspective of the overall health and well-being of our society.

Speaker(s): Kathryn Bronstein, PhD, RN

Implementing Patient-Centered Care
Just Culture: What is it Exactly?

Activity Type: Knowledge-based
Level 1
ACPE# 0202-0000-17-178-L05-P/T
0.1 CEUs
Safety in the workplace is important, but how do we establish a culture that encourages open reporting of adverse events and risky situations, yet hold people and organizations accountable in a just manner? The challenge lies in distinguishing between a system that might create risks, which may result in a bad outcome, and reckless behavior that intentionally puts lives or organizations at risk. As the result of a movement in the aviation industry, Just Culture is redefining our system of workplace justice in many other industries over the last 20 years, including health care. Just Culture reshapes our understanding of accountability, the role of the system, and the role of human behavior, allowing us to distinguish between human behaviors and help us develop a way to establish a safe environment by managing the system and behavior. This presentation highlights how to put “Just Culture” in your work environment.

Five biosimilars of four biologic products have been approved in the US since March 2015. A market research forecast of worldwide pharmaceutical sales predicts that, in 2020, 11 of the top 20 products will be biologics. The Biologics Price Competition and Innovation (BPCI or “Biologics”) Act of 2009 opened the door for faster approval of follow-on biologic products by creating a framework for an abbreviated licensure pathway. FDA issued final guidances for industry on biosimilars in 2015 and 2016 and posted draft guidances on nonproprietary naming of biologic products and on biosimilar interchangeability in January 2017. This presentation highlights the differences between biosimilars and either conventional generic drugs or bio- original products, the legal requirements of biosimilars, and outlines the biosimilar approval process. The session’s content assists health care organizations and providers determine the role of biosimilars on formularies and the implications of incorporating biosimilars into clinical practice.

Speaker(s): Francine Goodman, PharmD, BCPS, Veterans Health Administration

Implementing Patient-Centered Care
Immunization Update: Recent Vaccine Approvals and What’s in the Pipeline
1515–1615
Wekiva 9-10
Activity Type: Knowledge-based
Level 1
ACPE# 0202-0000-17-170-L06-P/T
0.1 CEUs
Pharmacists are one of the most accessible healthcare providers and are a valuable resource for many patients, including those that may not have a primary healthcare provider. With the growth and expansion of pharmacy-based vaccination services, the role of the pharmacist and pharmacy technician has expanded. There have been many recent developments in the field of immunizations, including new vaccines, new recommendations for older vaccines, and constant changing recommendations. As legislative trends move toward increasing the pharmacist’s authority to administer immunizations, it is important that all pharmacy staff are aware of the policies and procedures to ensure patient safety and the special considerations and requirements needed for pharmacy-based vaccination programs. This session provides the most recent developments and recommendations made by the Advisory Committee on Immunizations to allow pharmacists and pharmacy technicians to make appropriate clinical decisions and to become advocates for their patients in the area of vaccines.

The Defense Logistics Agency (DLA) continually works toward providing an efficient and responsive acquisition system that helps its customers buy medications strategically and cost effectively. Through the Defense Medical Logistics Standard Support (DMLSS) program, DoD brings electronic commerce to healthcare operations so pharmacists and pharmacy technicians can easily navigate through an electronic data interchange to research products, place orders, pay bills, and manage inventory. This session focuses on DoD cost savings initiatives and how to use DMLSS to leverage the strategic sourcing capability and pricing agreements to maximize cost avoidance.

Clinical pharmacists are ideally situated to be actively involved in the management of chronic pain. As a member of the Patient-Centered Medical Home team, the clinical pharmacist’s role can include provider/staff education, patient education, and medication management. This session will explore the role of various medication classes in treating chronic non-cancer pain with an emphasis on how to talk to patients. Methods to identify chronic pain patients who could benefit from a clinical pharmacist intervention are also discussed.

Considering the United States’ opioid epidemic, tools and strategies available to safeguard patients using opioids as well as other high-risk medications are explored.

The role of the clinical pharmacy technician, as a clinical pharmacist extender, is novel and expanding. Building on basic pharmacy technician skills, a clinical pharmacy technician performs functions ranging from administrative tasks to direct patient care to data management. The Army is taking steps to solidify the important contributions of clinical pharmacy technicians by creating a standardized position description and adding a clinical pharmacy technician fact sheet and competency-based orientation to the Army Medical Home Roles and Responsibilities Reference Manual. This session focuses on the roles, responsibilities, and contributions of clinical pharmacy technicians in the Army Medical Home.

The Department of Veterans Affairs (VA) works to strengthen suicide prevention efforts; enhances access to mental health care by building partnerships between VA and community providers; increases the number of VA mental health providers serving our Veterans; and promotes mental health research and development of more effective treatment methodologies. One solution to increasing the number of mental health providers was to create mental health clinical pharmacy specialist positions to bridge the care gap by expanding access to care, conducting medication assessments and evaluations,
Clinical Patient Care
Traumatic Brain Injury Seizure Prophylaxis
0915–1015
Wekiwa 9-10
Activity Type: Knowledge-based
Level 2
ACPE# 0202-0000-17-180-L01-P/T
0.1 CEUs
The military working environment can be dangerous, especially in combat situations, and exposes service members to hazards not routinely experienced by civilians. This is evident in the rates of traumatic brain injuries (TBI), which are significantly higher in veterans than in the civilian population. Post-traumatic seizures (PTS) are a sequela of TBI that can have both short- and long-term physiological consequences. Therefore, prevention of PTS should be a goal of therapy within any pharmaceutical care plan related to patients with TBI. Antiepileptic drugs (AEDs) are an important treatment modality for the prevention of PTS and military pharmacists are uniquely positioned in deployed operations to ensure that they are utilized effectively and safely. The primary focus of this session is to present evidence for the use of AEDs for the prevention of PTS in TBI in order to achieve the best patient outcomes.

The DoD Tech-Check-Tech program prepares students to perform both inpatient and outpatient pharmacy operations in both traditional and non-traditional pharmacy practice settings. The instructional design of this program’s courses is group-lock step. The Pharmacy Technician program is a consolidated program with three military services that has a two-phase field-of-study schedule. Resident training is first conducted at the Medical Education and Training Campus (METC), then the student transitions to clinical training that is conducted at military and/or civilian medical treatment facilities. This program provides pharmacy technician graduates with the knowledge, skills, and hands-on experiential training needed to achieve pharmacy technician entry-level competencies, and meet basic requirements set forth by the American Society of Health System Pharmacists. This session discusses what to expect when checking in a newly graduated DoD pharmacy technician.

Annually, more than 8 million health care personnel are potentially exposed to hazardous drugs. (NIOSH 2004) Although the incidence of cancer-related morbidity and mortality among health care personnel due to hazardous drug handling has not been quantified, the clinical data on reproductive risks and chromosomal abnormalities are numerous. With the recent release of US Pharmacopeial Convention (USP) General Chapter <800>, “Hazardous Drugs—Handling in Healthcare Settings,” practice sites are currently challenged with reviewing and implementing the standards prior to the July 1, 2018 expected compliance date. This program leads participants through the required USP standards and best practice standards for handling hazardous drugs and gives direction towards compliance.

*ACPE# 0202-0000-17-167-L04-P/T 0.1 CEUs*

Though there is a multitude of guidelines that are published with regards to patient care, there is often a mismatch from literature to the clinician’s office. **Academic Detailing (AD)** is designed to bridge this gap. AD is a multifaceted service for clinicians, by clinicians, that provides individualized, evidence-based, educational outreach visits. It has been effective in changing prescribing and impacting the utilization of evidence-based treatment modalities in a variety of practice settings. The AD approach customizes content and barrier-resolution strategies to meet individual clinician needs in the context of local operations. The academic detailer offers one-to-one visits with physicians, and health care team members to enhance prescribing through targeted education on medication safety initiatives. Along with provider and patient education, the AD program develops audit and feedback tools to assist with population management. This program provides information on how to utilize these techniques and showcases the Veterans Affairs AD’s impact on aligning providers’ prescribing behavior with clinical practice guidelines.

**Speaker(s):** Sarah Popish, Veterans Affairs Academic Detailing Service

**1530–1630**

**Pharmacy Business Operations, Management, and Professional Leadership**

**Pharmacy Case Law Update 2017: Kickbacks, Crazy Medicine, and Controlling Everything**

*Activity Type: Knowledge-based*

*Level 1*

*ACPE# 0202-0000-17-168-L03-P/T 0.1 CEUs*

Federal and civilian pharmacists and pharmacy technicians must be kept abreast of constantly changing developments in pharmacy law in order to practice safely and effectively within the legal parameters established by courts and regulatory agencies. This one-hour presentation provides an update of recent court decisions that have an impact on the practice of pharmacy. Areas of practice addressed in the presentation include potential liability for Facebook postings, defamation, and aiding law enforcement. Also, a case will be presented that provides an excellent framework for discussing the current opioid crisis in the United States and the complexities of combating this public health emergency.

**Speaker(s):** David Bobb, RPh, JD, MA, Department of Health and Human Services

**1630–1700**

- **Poster Awards**
- **Closing Ceremony**

---

### Closing Reception and Awards (or Service) Program

**Reception:** 1730–1830, Butler Awards (or Service) Program: 1830–2000

- Ralph D. Arnold Awards Program (USA), Wekiwa 7-8
- Lamar Smith Awards Awards Program (USN), Wekiwa 9-10
- Jerry W. Ross Awards Program (USAF), Suwannee 11-12
- USPHS Pharmacy Update and Coast Guard Award Recognition, Suwannee 13

**Supported by Parata Systems and GSL Solutions.**

The JFPS Contributed Papers Poster Program is designed to challenge federal practitioners and researchers by providing a forum to share practice information, disseminate research findings, and educate colleagues. Conference registrants were invited to submit abstracts in four categories:

- Contributed Research Papers: Presenting findings of original research on issues relevant to practicing pharmacists and pharmacy technicians.
- Innovative Practice Reports: Presenting new ideas or strategies for the delivery of patient care or creative applications of existing techniques and services.
- Reports on Projects in Progress: Presenting research papers or innovative practice reports in initial stages of outcomes reporting.
- Encore Presentations: Presenting posters previously included at other local, state, or national meetings.

Posters were accepted in four topic areas: Automation/Technology, Clinical Pharmacy, Hospital Inpatient Services, and Pharmacy Operations.

Most posters presented during JFPS 2017 are eligible for the poster awards program. Award plaques are for first place in each of the poster categories and overall best of seminar. Special recognition ribbons are awarded to the next highest scoring poster that did not win in its category. Awards are presented during the Closing General Session on Wednesday.

Posters are on display in Sebastian Ballroom I from Monday, September 11 at 0630 through Tuesday, September 12 at 1330.

Poster authors are available to discuss their poster research with attendees during the Meet the Researchers sessions on Monday, September 11 (odd numbers) or Tuesday, September 12 (even numbers) from 0630–0745. Each Meet the Researcher session will be accredited for 1 hour of CPE credit. Attendees must pick up a CPE form by 0730 to receive CPE.

### Automation/Technology

- **A Novel Program to Solve a New Problem: Streamlining Electronic Prescription Transcribing and Verification**
  Welch B, Wnek A, Goodfellow AFB (1)

- **A Practice-Focused Literature Review of Closed System Transfer Devices for Hazardous Medication Preparation and Administration**
  Mayer S, Ho K, Solimando D, Walter Reed National Military Medical Center (2)

- **Withdrawn.** (3)

- **Health Care Failure Mode and Effects Analysis for Health Information Technology Safety**
  Daum M, Department of Veterans Affairs Central Office, Kato D, Aleda E. Lutz VA Medical Center (4)

- **Improving PharmASSIST Functionality: Breaking the Domain Barrier**

- **Linking Outpatient Prescription to the Originating Encounter Record Using Claims Data**

- **Study of How Development and Implementation of Pediatric Dosing Calculator Macro Has Affected Weight-Based Dosing Errors in Outpatient Setting**
  Szucs J, Jones C, Fort Drum (7)

### Clinical Pharmacy

- **“Real-World” Effects on Low-Density Lipoprotein Cholesterol Levels for Patients Using Proprotein Convertase Subtilisin Kexin Type 9 Inhibitors**
  Holuby R, Martinez T, Barthol B, Brooke Army Medical Center (8)

- **Analysis of the Prophylactic Use of Filgrastim in a Military Ambulatory Oncology Setting**
  Aldaz M, William Beaumont Army Medical Center, Dominguez N, University of Texas at El Paso (9)

- **Anticoagulation Quality Assessment in Patients with Nonvalvular Atrial Fibrillation and Comparison with Major Trials of Direct-Acting Oral Anticoagulants**
  Shaver R, Joint Base Elmendorf-Richardson, Holuby S, San Antonio Military Medical Center, Shank T, Pfizer (10)

- **Decreasing Antibiotic Resistance for Uncomplicated Escherichia coli Urinary Tract Infection**
  Hunter J, Ireland Army Health Clinic, Ellison C, Fort Knox (16)

### Army Clinical Pharmacy: Clinical Pharmacists’ and Clinical Technicians’ Roles in Increasing Pneumococcal Vaccination Rates at Womack Army Medical Center Clinics at Fort Bragg

- **Carillo J, Davis D, Wintemute L, Fort Bragg (11)**

- **Assessing the Impact of Dronabinol on Patient Weight in a Chronic Pain Population**
  Kennedy R, Fort Sam Houston, Davies E, Brooke Army Medical Center (12)

- **Asthma Space Camp: Impact of a Multidisciplinary Clinic on Asthma Knowledge and Health-Related Outcomes**
  Norsworthy J, Dwight David Eisenhower Army Medical Center (13)

- **Battlefield Acupuncture: Pharmacist-Driven Initiative**
  Davis H, US Army Health Clinic (14)

- **Clinical Pharmacy’s Impact on the Healthcare Effectiveness Data and Information Set: Diabetes Mellitus Annual Hemoglobin A1C Measure**
  Cha A, Khan A, Seppelt A, Poon L, Floyd K, Fort Benning (15)

- **Decreasing Antibiotic Resistance for Uncomplicated Escherichia coli Urinary Tract Infection**
  Hunter J, Ireland Army Health Clinic, Ellison C, Fort Knox (16)
CONTRIBUTED PAPERS POSTER PROGRAM

Evaluating Psychiatric Outcomes Associated with Direct-Acting Antiviral Treatment in Veterans with Hepatitis C Infection
Shults J, Sackey B, Moore T, King Joshua, Mehvar M, South Texas Veterans Healthcare System (17)

Expanding the Clinical Pharmacist: Successful Implementation of a Pharmacist-Run Clinic in a Non-Hospital Setting
Welch J, Stillman J, Abbate Arielle, Hill AFB (18)

Frequency of Polypharmacy and Potentially Inappropriate Medications in Blind Geriatric Veterans
Ishak M, DiScala S, Quellhorst J, Taffó A, Silverman M, Office of Veterans Affairs West Palm Beach (19)

Has Fluoroquinolone Outpatient Prescribing Decreased Since the U.S. Food and Drug Administration’s Advice to Restrict for Certain Uncomplicated Infections in July 2016?—An Antimicrobial Stewardship Process Improvement Project
Craven J, Naval Hospital at Camp Lejeune (20)

Health Care Excellence: Pharmacy Mnemonic in Cardiology Clinic—A, B, C, D, & E
Holuby R, Martinez T, Brooke Army Medical Center (21)

Impact of a Clinical Pharmacist-Managed Clinic in Primary Care Mental Health Integration
Herbert C, Winkler H, South Texas Veterans Healthcare System (22)

Impact of Clinical Pharmacist Management After Attendance at a Single Group Session for Smoking Cessation on Cessation Medication Access and Smoking Cessation Success
Craven J, Winstead R, Adams A, Naval Hospital Camp Lejeune (23)

Improving Access to Care for Veterans in Rural Areas by Adding Clinical Pharmacy Specialists and Clinical Video Technology to Traditional Roles
Gentry C, Marcy T, Nagengast C, Oklahoma City VA Medical Center, Anderson J, South Community-Based Outpatient Clinic, English T, Wichita Falls Community-Based Outpatient Clinic (24)

Improving Adherence to Antidepressant Medications in the Acute Treatment Phase: A Quality Improvement Project to Address mdd43h
Shults J, Oliveira R, Winkler H, South Texas Veterans Healthcare System (25)

Investigational Artesunate Provided to Treat Severe Malaria Under an Expanded Access Treatment Protocol

Personalized Health Planning and Goal Setting in a Whole Health Shared Medical Visit
Whittington B, Nieto V, Reeves R, Gilbert S, Sam Rayburn Memorial Veterans Center Bonham (27)

Polypharmacy Pilot Program: Geographically Dispersed U.S. Army Recruiting Command Active Duty Service Members
Campbell L, Ireland Army Health Clinic (28)

Population Management: The Here and Now
Schaefer R, Kansas City VA Medical Center (29)

The Value of Clinical Pharmacy Services: Expanding the Role of the Pharmacist in Military and Veterans Affairs Health Care

Tobacco Cessation Pharmacy Outpatient Program
Korchnov Y, US Naval Hospital Okinawa (31)

Trend in Sleep Medication Among Active Duty Service Members

Trends in Psychotropic Medication Among Active Duty Service Members

Cmelik T, Battar S, Dickerson K, Brown Z, McKinnon K, 598- Central Arkansas Veterans Healthcare System (34)

Utilization of Academic Detailing to Optimize Systolic Heart Failure Medication Prescribing Across a Veterans Affairs Network of Medical Centers
Ragan A, Aikens G, Central Arkansas Veterans Healthcare System, Brittain K, Wm. Jennings Bryan Dorn VA Medical Center, Roop B, Birmingham VA Medical Center, Walker A, Augusta VA Medical Center, Cantrell H, Atlanta VA Medical Center MC, Lavinghousez C, Charleston VA Medical Center (35)

Workup and Assessment of Reported β-Lactam Allergy in Patients Using a Penicillin Allergy Testing Protocol
Dufrene S, Meck J, Waibel K, Geist C, Acasio D, Nguyen M, Landstuhl Regional Medical Center, Ballinger C, Ramstein Air Base (36)

Hospital Impatient Services

Barcode Scanning of Unit Dose Medications in an Army Community Hospital
Weaver T, Krull M, Fort Leonard Wood (37)

Internal Impact of an Outsourced Compounding Pharmacy on Inpatient Pharmacy Services
Ketchner M, Cavanagh T, Walter Reed National Military Medical Center (38)

The Use of Dantrolene in Malignant Hyperthermia—A Case Report
Pharmacy Operations

Adding Value to the Composite Health Care System Near Miss Reporting

Withdrawn. (41)

Benefits of a Self-Care Over-the-Counter Medication Program at Evans Army Community Hospital
Fay R, Evans Army Community Hospital (42)

Changes in Workload Due to Composite Health Care System Automatic Batching of Provider Order Entry Medication
Elazegui R, Andersen AFB (43)

Clinic Inspection Reporting

The JFPS Exhibit Hall is a one-of-a-kind marketplace that allows you to visit companies showcasing the latest products, services, and trends in the industry. Meet face-to-face with industry leaders and organizational representatives as they demonstrate new products, discuss exciting new services, and answer your questions.

The Exposition is open for three days:
- Sunday, September 10 1800–2000
- Monday, September 11 1130–1400
- Tuesday, September 12 1130–1400

**Exhibit Hall Opening—Meet Your Industry Partners**
Sunday, September 10
1800–2000
Sebastian Ballroom

We have lift off! Join your colleagues for the Exhibit Hall Opening and enjoy a virtual ride to outer space while you visit with our valued supporters to see the latest and greatest in products and services for federal pharmacy! Complimentary food and refreshments are served. A cash bar is also available. Dress for the reception is business casual. Your badge is required for entrance (and lift off!).

*Supported by Amgen.*

**Pharmacy Technician Recognition Day**
Tuesday, September 12
1130–1400

Join us in the Exposition on Tuesday as we honor pharmacy technicians as part of National Pharmacy Technician Day. Help recognize and celebrate pharmacy technicians by enjoying complimentary treats in the Exposition!

*Supported by Pharmacy Technician Certification Board.*
Abbott Diabetes Care, Booth 424  
1420 Harbor Parkway, Suite 290  
Alameda, CA 94502  
Phone: 510-749-5400  
www.abbott.com

Abbott Diabetes Care, a division of global health care company Abbott, is committed to improving the lives of people with diabetes. The company manufactures, distributes, and markets innovative glucose monitoring systems and offers valuable services to help patients and health care professionals better manage diabetes care needs. For more information, visit abbottdiabetescare.com.

AbbVie, Booth 405  
3303 Lyncrest Court  
Burtonsiville, MD 20866  
Phone: 301-704-6090  
francine.behrman@abbvie.com  
www.abbvie.com

AbbVie is a global, research-based biopharmaceutical company that combines the focus of a leading-edge biotech with the expertise and structure of a long-established pharmaceutical leader. AbbVie is committed to using unique approaches in innovation to develop and market advanced therapies that address some of the world’s most complex and serious diseases.

ACF Technologies, Inc., Booth 303  
64 Peachtree Road, Suite 201  
Asheville, NC 28803  
Phone: 828-398-0040  
sales@acftechnologies.com  
www.customerflow.com

ACF Technologies is the leading innovator in advanced patient and customer flow solutions. Our Q-Flow queuing platform is network approved, web based, enterprise ready, and uses no proprietary hardware or consumables. With ACF’s Q-Flow solution on your network, pharmacy queuing is only the beginning. We are excited to introduce new configurations for fill-ahead queuing, on-deck window staging, and comprehensive entry-to-exit patient flow.

Alkermes, Inc., Booth 411  
852 Winter Street  
Waltham, MA 02451  
Phone: 205-394-0906  
stacy.thompson@alkermes.com  
www.alkermes.com

Alkermes is a fully integrated biopharmaceutical company that applies its scientific expertise and technological know-how to develop innovative medicines designed to help patients with serious, chronic conditions better manage their disease. For more information, visit Alkermes’ website at www.alkermes.com.

Allergan, Inc, Booth 100  
3409 Amberfield Lane  
Haymarket, VA 20169  
Phone: 703-620-0438  
doug.remeikis@allergan.com  
www.allergan.com

Allergan (NYSE: AGN) is a unique, global pharmaceutical company focused on developing, manufacturing, and commercializing high-quality generic and innovative branded pharmaceutical products for patients around the world. The company has 30,000 employees worldwide and maintains global headquarters in Dublin, Ireland. For more information, visit www.allergan.com.

AmerisourceBergen Corp., Booth 218  
1300 Morris Drive  
Chesterbrook, PA 19087  
Phone: 610-727-7000  
 lstep@amerisourcebergen.com  
www.amerisourcebergen.com

AmerisourceBergen is one of the largest global pharmaceutical sourcing and distribution services companies, helping health care providers and pharmaceutical and biotech manufacturers improve access to products and enhance patient care. With services ranging from drug distribution to reimbursement and pharmaceutical consulting services, AmerisourceBergen delivers innovative solutions across the pharmaceutical supply channel.

Amgen Inc., Booth 106  
One Amgen Center Drive  
Thousand Oaks, CA 91320  
Phone: 203-313-7641  
padams01@amgen.com  
www.amgen.com

Amgen is committed to unlocking the potential of biology for patients suffering from serious illnesses by discovering, developing, manufacturing, and delivering innovative human therapeutics. A biotechnology pioneer since 1980, Amgen has reached millions of patients around the world and is developing a pipeline of medicines with breakthrough potential.

Arbor Pharmaceuticals, Booth 114  
6 Concourse Parkway, Suite 1800  
Atlanta, GA 30328  
Phone: 817-617-1217  
kjohnson@arborpharma.com  
www.arborpharma.com

Arbor Pharmaceuticals, headquartered in Atlanta, Georgia, is a specialty pharmaceutical company focused on the hospital, cardiovascular, and pediatric markets. Arbor intends to become a leading specialty pharmaceutical company by actively licensing, developing, and commercializing late-stage products for specialty-focused conditions. Arbor currently markets 16 NDA- and ANDA-approved products with more than 30 more in development.
ARKRAY, Booth 127
5198 W. 76th Street
Edina, MN 55439
www.arkrayusa.com

ARKRAY has devoted more than half a century to creating solutions that simplify the lives of people with diabetes and the health care professional. Wolters Kluwer Clinical Drug Information, Booth 224
1100 Terex Road
Hudson, OH 44236
Phone: 330-656-0369
mark.dachille@wolterskluwer.com
www.wolterskluwercdi.com
Wolters Kluwer Health helps health care organizations improve clinical effectiveness by providing solutions to balance the quality/cost equation. UpToDate minimizes the ambiguity inherent in patient care with evidence-based treatment recommendations. Lexicomp and Medi-Span help professionals make safe medication decisions with point-of-care drug references and integrated drug data.
Presentation Theater sessions provide an opportunity to ask product-specific questions of key experts and industry representatives, find out information on new pharmaceutical products and services, and learn the latest in data and research findings. Space is limited—arrive early. Since the material presented may be promotional and may concentrate on a specific product, these sessions are not approved for CPE credit.

### Monday, September 11

**Presented by Sunovion Pharmaceuticals Inc.**

**1300–1400**  
*Sebastian Ballroom*  
**MediCUBE: Big Data, Meaningful Insights, Measurable Actions**  
In the increasingly difficult pursuits to improve health outcomes while simultaneously reducing healthcare costs, data—big data—have been and will continue to be crucial. However, big data alone is not sufficient. The data must be turned into meaningful insights and those insights must drive specific, measurable actions that return value to clients, providers, and ultimately, patients. That’s where MediCUBE comes in! Our powerful solution leverages insights gained from billions of prescription and medical claims from millions of patients to identify trends and targets of opportunity to reduce health care spending, inform prescribing practices, and improve health outcomes for client populations.  
**Speakers:** Tom Henry, VP of Knowledge Solutions and Chief Data Officer, Express Scripts, Inc.  
Dave Lawrence, Director of Academic Detailing and Data Solutions, Express Scripts, Inc.  
**Presented by Express Scripts, Inc.**

### Tuesday, September 12
